

## RESEARCH SCHOLAR PROGRAM – 2018

### SUPERVISOR & PROJECT INFORMATION FORM

Please complete and return, via email only ([crems.programs@utoronto.ca](mailto:crems.programs@utoronto.ca)) by **November 3<sup>rd</sup> 2017** (*forms received after this date will not be posted*).

#### *Supervisor Information*

Name: Tarek Rajji

Email: tarek.rajji@camh.ca

Degree: MD

SGS Appointment (IMS, IHPME, LMP etc.): IMS

Academic Rank: Associate Professor

Field of Research: Alzheimer's disease; Neurostimulation;  
Neurophysiology; Aging; Schizophrenia

Research Institution Affiliation (if applicable): CAMH

Allocation of student contact time (number of hours per week YOU are available to the student for any concerns or to review progress):

At least 7 hours

## Project Information

Title: High Risk Populations for Alzheimer's Dementia

Description (max 500 words):

This project will focus on understanding clinical, cognitive, functional, or neurophysiological characteristics of older patients with mild cognitive impairment (MCI) or depression, which constitute two high risk populations for Alzheimer's dementia. The project will also include comparing these patients to patients who already have developed mild Alzheimer's dementia using the same characteristics. The project will be based on data that has already been collected to facilitate the design and writing of manuscripts early on. Still, the student will participate in the recruitment and assessments of patients with MCI, depression or Alzheimer's dementia.

If human subjects are involved, have Ethics been obtained?

YES

NO

Application Submitted

N/A

Do you expect this work will be published within the 20 months?

YES

NO

Uncertain

Student's roles and responsibilities (please be specific) See above

*Please indicate who will serve as the student's direct report (PI, PhD student, technician etc...) PI*
