

# INFORMATION SHEET

## GRADUATE DIPLOMA & PROFESSIONAL MASTER IN MEDICAL SCIENCES

The programs in Medical Sciences have been developed to provide graduates of medical schools, both in Canada and internationally, with an opportunity to enhance their clinical and research skills.

Students will build on the foundations of their medical degree in a variety of ways:

- Further develop their clinical skills in the context of the Canadian healthcare system
- explore current issues in medical sciences.
- Interpret foundational research and its relationship to clinical practice
- Conduct research responsibly using appropriate guidelines and procedures
- Apply ethical behaviours consistent with academic integrity and professional standards.

	Graduate Diploma	Professional Master
<b>Start Date:</b>	July 3rd, 2018	July 3rd, 2018
<b>Duration:</b>	6 months	12 months
<b>Tuition Cost:</b>	\$12,500	\$25,000

**APPLICATION DEADLINE: April 15th, 2018 11:59 pm**

**APPLY  
TODAY!**

The Graduate Diploma and Professional Master of Medical Sciences will prove beneficial when graduates submit their applications for postgraduate residency positions. The residency admission process, coordinated through the Canadian Resident Matching Service (CaRMS), is highly selective and applicants will be well-positioned to demonstrate the enhanced clinical and research skills they have developed through these programs.
