UNDERGRADUATE TEACHING

2021-2022

OPPORTUNITIES IN MISSISSAUGA

As of September 1, 2021
OVERVIEW

The University of Toronto (U of T) Temerty Faculty of Medicine and its affiliated health care institutions share a joint mission of health care education. This shared joint mission includes the collaborative delivery of the curriculum of the U of T Doctor of Medicine (MD) Program (four years), including interprofessional education, through the four Academies at various clinical and education sites.

The Mississauga Academy of Medicine (MAM) is comprised of an anchor site, Trillium Health Partners (THP), and an associate site, the University of Toronto Mississauga (UTM). THP is a learning organization dedicated to providing high-quality patient-centered care, committed to educating the next generation of physicians and health professionals.

Teaching in Mississauga: Physicians and interprofessional team members have many opportunities to participate in a wide range of exciting experiences across multiple teaching locations, including:

- THP sites – Credit Valley Hospital, Mississauga Hospital, Queensway Health Centre
- UTM campus – Terrence Donnelly Health Sciences Complex (TDHSC)
- U of T St. George (UTSG) campus – Medical Sciences Building (MSB)
- Community clinical offices and agencies

By participating in direct teaching to medical learners and providing regular clinical supervision, your support will enhance our collaborative approach to delivering education at THP.

For information on the Years 1 and 2 Foundations curriculum or Years 3 and 4 Clerkship curriculum:

- [www.md.utoronto.ca/curriculum](http://www.md.utoronto.ca/curriculum)

For teaching support, please refer to the Academic Calendar – a guide to essential aspects of the MD Program:

- [https://md.utoronto.ca/academic-calendar](https://md.utoronto.ca/academic-calendar)

FACULTY APPOINTMENT

We request physicians who teach medical learners to hold an academic appointment with their appropriate department at the University of Toronto (U of T). This ensures our site meets accreditation standards and enables the physician to complete learner evaluations.

Thank you for your support!

For further information on a U of T faculty appointment, please visit: [www.medicine.utoronto.ca/faculty-staff/faculty-appointments-and-promotions](http://www.medicine.utoronto.ca/faculty-staff/faculty-appointments-and-promotions)

The Education Office will facilitate the application process for Trillium Health Partners (THP) physicians. For assistance in obtaining a faculty appointment, please email or call Kim Bradley at Kim.Bradley@thp.ca or 905-848-7580 ext. 1749

Further information can be obtained through the Education Office by emailing: [MariaLuisa.VicentePacheco@thp.ca](mailto:MariaLuisa.VicentePacheco@thp.ca)

2021-22 COURSE BREAKDOWN
YEARS 1 and 2 - FOUNDATIONS
FOUNDATIONS COURSE OVERVIEW

There are five courses that run throughout the two years:

**Introduction to Medicine**
11 weeks in Year 1
Introduces basic and social sciences relevant to medicine, cognitive science, clinical skills and community health

**Concepts, Patients, and Communities 1**
13 weeks in Year 1
Instruction on health and the diagnosis and treatment of disease relevant to all of the body’s systems

**Concepts, Patients and Communities 2**
9 weeks in Year 1
Instruction on health and the diagnosis and treatment of disease relevant to all of the body’s systems (cont’d)

**Concepts, Patients and Communities 3**
16 weeks in Year 2
Instruction on health and the diagnosis and treatment of disease relevant to all of the body’s systems (cont’d)

**Life Cycle**
9 weeks in Year 2
Instruction on health and disease from conception, development, birth, infancy, childhood, adolescence, aging, and for patients who are dying

**Complexity and Chronicity**
11 weeks in Year 2
Consolidation of the program with emphasis on chronic disease management, and complex problems with preparation for clerkship

**Director, Year 1 Foundations**
Dr. Anne McLeod

**Director, Year 2 Foundations**
Dr. James Owen

**Foundations Course Directors:**
Dr. Anne McLeod
Introduction to Medicine – Year 1

Dr. Robert Goldberg
Concepts, Patients & Communities 1 – Year 1

Dr. Ashna Bowry
Concepts, Patients & Communities 2 – Year 1

Dr. Evelyn Rozenblyum
Concepts, Patients & Communities 3 – Year 2

Dr. Hosanna Au
Life Cycle – Year 2

Dr. James Owen
Complexity and Chronicity – Year 2
CASE-BASED LEARNING (CBL)

Student’s Experience of a CBL Case:

This is a virtual patient online module that outlines the case of the week. A group of 8-10 students will go through the CBL module together, without a faculty tutor. The students follow the journey of a patient (or a family) navigating the health care system in the case. They will explore the trigger questions, patient-directed questions, resources, videos, imaging, EMR screenshots, and lab results findings, etc. in the case. In addition, there are around 10-15 questions that the group will have to answer and submit to the faculty tutor by the end of this self-guided group session. During the week, the students will independently explore the resources (e.g., guidelines, clinical skills videos, etc.) embedded in the CBL module to solidify their understanding. A few days later, the same group will attend a 2.5-hour CBL session with a faculty tutor (note: each group will have a longitudinal relationship with a few faculty tutors.). The faculty will review the answers with the group, challenge their thinking, answer questions (tutor-guide for the case will be provided by the content experts), and present other similar cases to help the students transfer their knowledge to other contexts. The tutors will also identify any confusing or challenging concepts remaining at the end of the session and inform the central teaching team. These concepts will be discussed with students further at a later time in the Integrated Summary and Application Lecture (see page 17). Refer to the following for an example of a virtual case: http://emodules.med.utoronto.ca/UME/191/013/story.html

MAM CBL TOPIC Group Leaders:

Year 1
Dr. Robert Goldberg
Dr. Ahmed Hassan
Dr. Frances Cousins
Dr. Tanzil Rahman
Dr. Matthew Robinson
Dr. Naveed Syed

Year 2
Dr. Pearl Behl
Dr. Jamsheed Desai
Dr. Stephen McKenzie
Dr. Ahmad Muinuddin
Dr. Melanie Spring
Dr. Corey Stein

MAM Foundations Course Coordinator:
Elizabeth Day
### Summary of TOPIC CBL Years 1 and 2 Teaching Requirements:

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Year 1: Thursday PM</th>
<th>Duration and Interval:</th>
<th>Year 2: Wednesday AM (Sept – May)</th>
<th>2.5 hours Weekly</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Total # of Tutorials</strong></td>
<td>72 across the two year curriculum</td>
<td><strong>Faculty Support/Development</strong></td>
<td>Yes</td>
<td># Tutors Required/Session</td>
</tr>
<tr>
<td><strong>Assessments</strong></td>
<td>Review of Student Assignment required prior to the CBL session</td>
<td><strong># of Students/Group</strong></td>
<td>9</td>
<td></td>
</tr>
<tr>
<td><strong>Teacher Qualifications</strong></td>
<td>CBL tutors can be generalists, specialists, or clinician scientists – there is an opportunity for all medical faculty who are interested in teaching through analysis of clinical cases. Generalist physicians from many disciplines may be able to take on more cases to provide longitudinal continuity, but subspecialists will also provide added support.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
The Clinical Skills portion of the Integrated Clinical Experience (ICE) component is hospital-based and provides students with instruction on how to take a patient’s history and perform physical examinations.

This teaching runs across the first two years of the MD Program.

**Summary of Clinical Skills Teaching Requirements:**

| Day of the Week | Year 1: Friday AM  
<table>
<thead>
<tr>
<th>Year 2: Thursday AM</th>
<th>Duration and Interval</th>
</tr>
</thead>
</table>
| **Total # of Tutorials** | Approximately 33 weeks in Year 1.  
| | Approximately 36 weeks in Year 2 taught by generalists, and subspecialties. |
| **Total Teaching Time** | Year 1: Approx. 132 hours of teaching encompassing full year - shared commitment between physicians.  
| | Year 2: Approx. 144 hours of teaching spread throughout the year – shared commitment. |

<table>
<thead>
<tr>
<th>Faculty Support/ Development</th>
<th>Yes</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong># Tutors Required/ Session</strong></td>
<td>Minimum of 9 across sites for each year</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Assessments</th>
<th>Evaluations, Case Reports + OSCE</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong># of Students/Group</strong></td>
<td>Approximately 6</td>
</tr>
</tbody>
</table>

**Teacher Qualifications**

This teaching opportunity is attractive to generalists – any physician who enjoys teaching the basics will enjoy teaching Clinical Skills.

For Year 2, specialists are recruited for sessions requiring content experts, such as Psychiatry, Paediatrics, Geriatrics and Neurology. Many tutors commit to returning year-over-year.

Postgraduate medical trainees and Clinical Fellows with program permission can also be recruited as required.
ENRICHTING EDUCATIONAL EXPERIENCES (EEE)

Students must complete 36 hours in the first 2 years of the MD Program. The experiences include “shadowing”, with at least one experience involving exposure to a designated population. While, at this time, the experience doesn’t have to be organized specifically around a designated population, it must expose the student to a preceptor working with that population in some manner. When students register an experience, they will indicate if it satisfies the “designated population” requirement - these experiences will be student-driven and student-reported.

Summary of EEE Teaching Requirements:

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Year 1: Wednesdays or during other free time</th>
<th>Duration and Interval</th>
<th>As agreed upon between supervising physician and student</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 2: Tuesdays or during other free time</td>

<tr>
<td>Assessments</td>
<td>No</td>
<td># of Students/Group</td>
<td>N/A</td>
</tr>
<tr>
<td>Teacher Qualifications</td>
<td>Physician support for accepting observership experiences is required in order to meet the student’s curriculum needs. The location for observerships can be hospital-based or clinic/office-based.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Director, Career Advising System (EEE):
Dr. Laila Premji

Local Support Available through Academy Career & Transitions (ACT):
Lead (MAM):
Dr. Penny Yin

THP Preclerkship Coordinators:
René deHooge (CVH)
Paty Callaghan (MH)
The Ethics and Professionalism theme is designed to provide students with the opportunity to grapple with ethical and professional dilemmas drawn from both student and faculty experiences, and the bioethics and professionalism literatures. The teaching for this content runs across Years 1 and 2.

Summary of Ethics Teaching Requirements:

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Year 1: Thursday morning or Friday afternoon</th>
<th>Year 2: Monday morning or afternoon (Sept – May)</th>
<th>Duration and Interval</th>
<th>1.5 – 3 hours (varied)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total # of Seminars</td>
<td>Year 1: 4</td>

<td># of Students/Group</td>
<td>18</td>
</tr>
<tr>
<td>Teacher Qualifications</td>
<td>Sessions are facilitated by two tutors who have an interest/experience in Ethics and Professionalism – a clinical ethicist is paired with a clinician.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Faculty Lead: Dr. Nadia Incardona

MAM Physician Coordinator: Dr. Rob Boyko

MAM Foundations Course Coordinator: Elizabeth Day
This 2\textsuperscript{nd} year course is managed centrally by the DFCM. Interested Family Medicine physicians should contact the FMLE Coordinator (fmle.recruit@utoronto.ca or 416-946-5249) if they are interested in supporting this course.

Students participate in six community-based family medicine clinics over a three to four month period. Students are assigned preceptors through a match process, after which the six clinic dates will be arranged and agreed on jointly by the student and preceptor, from a list of dates supplied by the University.

The FMLE provides students an opportunity to experience clinical care in the community-based, primary care setting. Students have the opportunity to participate in the daily activities of a clinic and find out what it’s really like to be a family physician, practice and hone their interview and physical examination skills while discovering the incredible options that a future in family medicine offers.
HEALTH IN COMMUNITY (HC) – YEARS 1 AND 2

HC teaches the fundamental principles of community health. There is currently a combination of academy-based sessions, field visits to community agencies and patient home visits. Academy-based tutorial sessions review the principles of community health learned/highlighted in the field visits. These sessions are co-tutored with an allied health care professional at UTM. Starting in the Spring of Year 1, students and tutors are assigned to a community partner agency. Students work to develop and complete their community based service learning component (CBSL) during 2nd year.

Summary of HC Teaching Requirements:

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Year 1: Tuesday (1:30-4:30 pm)</th>
<th>Year 2: Thursday (1:30-4:30 pm) (September – May)</th>
</tr>
</thead>
<tbody>

<td></td>
</tr>
</tbody>
</table>
HEALTH SCIENCE RESEARCH (HSR) – YEARS 1 AND 2

With the development of the Foundations curriculum, HSR was re-conceptualized as a two-year component, however tutor-based teaching is required only in the second year with the first year being lecture-based.

The HSR component is an introduction to the principles of research, directed at helping students understand and use research to contribute to improving the health of people and populations, including First Nations, Inuit and Metis peoples, in Canada and globally. The change from a one-year course to a two-year longitudinal component is aimed at:

1. Integrating research knowledge and skills at the start of the student’s medical education.
2. Allowing for a robust curriculum to be taught, processed and assimilated over a 2-year period.
3. Providing a solid foundation in research knowledge and skills for prospective research activities, scholarly activities and clinical practice and the care of patients.
4. Allowing students to build up their scientific research knowledge, develop research competencies such as critical-thinking, problem-solving, life-long learning, hypothesis formulation, methodology delineation, results interpretation and data communication both orally and textually.
5. Developing positive attitudes towards research and encouraging productive engagement in undergraduate research activities.

**HSR Component Director:**
Dr. Gwen Jansz

**MAM Administrative Coordinator:**
Frances Rankin

### Summary of HSR Teaching Requirements:

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Year 2: Wednesday PM (Sept – May)</th>
<th>Duration and Interval</th>
<th>2 hours/session</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total # of Tutorials</td>
<td>Year 2: 7 plus one librarian lead session (tutor attendance optional)</td>
<td>Total Teaching Time</td>
<td>Approx. 22 hours across two years</td>
</tr>
<tr>
<td>Faculty Support/ Development</td>
<td>Yes</td>
<td># Tutors Required/Session</td>
<td>9</td>
</tr>
<tr>
<td>Assessments</td>
<td>Yes – Evaluations</td>
<td># of Students/Group</td>
<td>10–12</td>
</tr>
<tr>
<td>Teacher Qualifications</td>
<td>• Must be MD, PhD, or MD/PhD and actively engaged in research • Effective teacher who is enthusiastic about health science research and the importance of developing life-long skills in this area • Expertise in 1 or more Canadian Institutes of Health Research (CIHR) pillars • Experience supervising / mentoring students on independent research • Comfortable meeting the individual needs of students who have entered medical school with a wide range of research experiences • In short, tutors should be a “hybrid” faculty person – one who is both an excellent educator/teacher and researcher.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
PORTFOLIO - YEARS 1 AND 2

Portfolio offers an opportunity for guided reflection on what students are learning and incorporates frequent, low to moderate stakes assessment exercises, including written tests, clinical skills observations, clinical application exercises, among others. Results of these assessments are gathered by students in a Learner Chart throughout the year, and are regularly reviewed with faculty mentors to ensure students are staying on track, and receiving help where it is needed.

Physicians supporting this course are referred to as Academy Scholars. Academy Scholars will facilitate and guide group discussion about experiences as medical students and will give longitudinal feedback to students. The Scholar is a mentor and advisor to each student on two occasions during the academic year, to review the Learner Chart compiled by the student, consisting of formal assessments, student’s reflections and learning plan related to these assessments. This teaching in Years 1 and 2 takes place at UTM.

**Summary of Portfolio Requirements:**

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Year 1: Monday PM</th>
<th>Year 2: Monday PM (Sept – May)</th>
<th>Duration and Interval</th>
<th>2 hours for 6 sessions and 5 hours for 2 sessions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total # of Tutorials</td>
<td>6 + 2 individual meetings of 30 minutes/student</td>
<td>Total Teaching Time</td>
<td>Approx. 30 hours/year</td>
<td></td>
</tr>
<tr>
<td>Faculty Support/Development</td>
<td>Yes</td>
<td># Tutors Required/Session</td>
<td>12 across the two years – 6/year (there is a potential for 2 physicians to share commitment)</td>
<td></td>
</tr>
<tr>
<td>Assessments</td>
<td>Yes - Reflections</td>
<td># of Students</td>
<td>Approx. 7</td>
<td></td>
</tr>
<tr>
<td>Teacher Qualifications</td>
<td>Academy Scholars are respected teachers in their clinical departments, with comfort and skill in engaging trainees and earning their trust, while providing honest and helpful feedback in a supportive fashion. Physician Academy Scholars co-facilitate this teaching with a Junior Scholar (generally a resident).</td>
<td></td>
<td></td>

MD Faculty Lead, Portfolio and Theme Integration:  
Dr. Nirit Bernhard

MD Associate Faculty Lead, Portfolio:  
Dr. Lindsay Herzog

MAM Physician Site Coordinator:  
Dr. Sarah McClenann

MAM Administrative Coordinator:  
Frances Rankin
REMEDICATION

AACE-IT (Achieving Academic & Clinical Excellence in Training) and SCORE (Structured Clinical Observation, Reflection and Evaluation)

Physicians may be recruited to support MAM students who are experiencing challenges within the MD Program curriculum. While there is some compensation available to support MAM students requiring additional academic or clinical practice, the overall student requirements and the payment allocated will be clearly defined each time a physician is engaged by MAM Physician Lead to support a specific need.

MAM Physician Lead:
Dr. Mini Joshipura

Administrative Supports:
Paty Callaghan (MH)
René deHooge (CVH)
Clinical Decision-Making workshops (CDM) provide active learning opportunities for students to practice applying their knowledge and skills to a variety of clinical cases, reinforce what was covered in the other modalities, and build their clinical decision-making skills.  

Skills-based workshops assist the students in learning/practicing a specific clinical skill within a clinical context including, when relevant, learning how to communicate about the situation to the patient and family (e.g., ECG workshops, Ultrasound teaching, etc.).

Longitudinal theme seminars are led by a faculty or a panel of experts including non-physician experts (e.g., ethics, leadership). Specific information on Ethics and Professionalism is provided below.

### Summary of TOPIC Seminar/Workshops Teaching Requirements:

<table>
<thead>
<tr>
<th>Day of the Week:</th>
<th>Varies (September – May)</th>
<th>Duration and Interval</th>

2021-22 COURSE BREAKDOWN
YEARS 3 and 4 – CLERKSHIP
Transition to Clerkship (TTC) is a course that runs at the beginning of clerkship in the third year of the undergraduate medical program. This course strives to assist students in developing the knowledge, skills and attitudes they require to successfully progress from their role as a student to a member of the healthcare team as a clinical clerk. TTC is delivered for MAM at the Terrence Donnelly Health Science Complex (TDHSC), with clinical days (otherwise known as Academy Days) occurring at THP. Faculty are recruited for all small group learning sessions.

There are four focus areas with which the medical learner will be provided an opportunity to learn: 1) The Intrinsic CanMEDS roles, emphasis on teamwork, patient safety, managing information, interprofessional care, and medical-legal issues; 2) Medical Expert roles such as therapeutics, nutrition, medical imaging; 3) The care of priority populations (those living in poverty, and diversity groups; and 4) Specific skills needed for clerkship, explored within the Academy Days of TTC.

The hospital-based academy days during TTC consist of clinical skills days which provide students an orientation to clinical skills procedures and urgent response. Students are divided into small groups and rotate throughout various stations where specific skills are taught. These skills may include:
- Airway management and NGT placement
- Code Blue & CPR
- Gloving and gowning for the OR
- Infection prevention and control, including sharps handling
- ECGs
- Safe transfers (taught in the Simulation Centre)

Students also take part in additional seminars during TTC, which include topics on professional relations, poverty and health, imaging and patient safety. Details relating to teaching sessions that are available during TTC are listed below.

MAM Coordinator:  
Jonathan Hersh
CLERKSHIP TEACHING OPPORTUNITIES (YEARS 3 AND 4)

The Years 3 and 4 curriculum primarily comprises clinical teaching. This allows for numerous opportunities to participate as a supervising physician across many programs. Trillium Health Partners provides over 90% of the 3rd year core clerkship teaching for MAM students and creates the opportunity for many elective and selective experiences within the fourth year of clerkship as the medical students prepare for residency. The core clerkship program includes rotations in Anaesthesia, Emergency Medicine, Family Medicine, Medicine, Mental Health, Ob-Gyn, Ophthalmology, Otolaryngology, Paediatrics and Surgery. In addition to numerous opportunities to supervise 3rd and 4th year medical students within their clinical rotations, many programs have direct teaching opportunities within their mandatory curriculum requirements. The following provides contact information for each of these programs:

<table>

The Portfolio Program in Years 3 and 4 is hospital-based. This course provides structured guidance to medical students in their 3rd and 4th year. The current curriculum is designed to use self-reflection as a means to assisting students with understanding the various experiences through their clinical rotations. Two facilitators are paired together to meet with small groups of 6-9 students to discuss the uncertainties of their new role as a junior clinician – the highs and lows on each rotation; the messages they get form supervisors, patients, and peers.

Sessions take place Thursdays between 4-6 pm.

### Summary of Portfolio Years 3 and 4

#### Teaching Requirements:

| Day of the Week: | Thursday afternoon (Sept – June) | Duration and Interval | Year 3 = 2 hours for 6 sessions and 5 hours for 2 sessions  
Year 4 = Jan/Feb/Apr = 2 hours for 2 sessions and 5 hours for 1 session |
|-----------------|---------------------------------|----------------------|----------------------------------------------------------|
| Total # of Tutorials | Year 3:  
6 + 2 Individual meetings of 30 minutes/ student  
Year 4: 2 + 1 individual meeting of 30 minutes/ student | Total Teaching Time | Year 3 = 14 hours  
Year 4 = 6 hours |
| Faculty Support/ Development | Yes | # Tutors Required/Session | 16  
(8 pairs who co-facilitate) |
| Assessments | Yes - Reflections | # of Students/Group | 6-7 |
| Teacher Qualifications | Academy Scholars are respected teachers in their clinical departments, with comfort and skill in engaging trainees and earning their trust, while providing honest and helpful feedback in a supportive fashion |

POSTGRADUATE MEDICAL EDUCATION

THP provides educational experiences for approximately 400 postgraduate trainees, including residents, fellows, and some international trainees.

Our hospital acts as the site for two core family medicine teaching units, along with opportunities for residents to participate in educational experiences within our clinical programs recognized by the Royal College of Physicians and Surgeons of Canada and the College of Family Physicians of Canada. Through our affiliation with U of T, clinical department chairs coordinate training programs for learners and the duration of training varies according to curriculum guidelines and accreditation standards determined by the respective Colleges. Every rotation at THP is based on personal objectives agreed upon between the supervising physician and the resident.

With clinical training widely distributed amongst our sites, within our community and at our FMTU’s, we offer a unique approach to postgraduate medical education and will continue to support the growth of our postgraduate trainees and medical education within our hospital and the community of Mississauga. In addition to clinical supervision of postgraduate trainees, there are also opportunities to deliver formal presentations as part of the family medicine residency academic program.
INTERPROFESSIONAL EDUCATION
OPPORTUNITY FOR INVOLVEMENT

Interprofessional education is a worldwide initiative that aims to improve the standards of patient/client care, health provider satisfaction and foster the highest quality of collaborative practice. The skills that students learn as part of this curriculum will enable them to be collaborative practice-ready healthcare professionals.

Guided through the leadership of the Curriculum Portfolio, the IPE Curriculum has seen major developments in the past three years. In the IPE Curriculum, students are able to advance through the developmental levels - Exposure, Immersion and Competence (See U of T IPE Competency Framework) with competencies identified in the Values and Ethics, Communication and Collaboration constructs. Please visit U of T’s CIPE website for more information on current curriculum requirements: http://ipe.utoronto.ca/interprofessional-education-curriculum.

A calendar of all IPE elective offerings currently available at THP can be found on the Education page on the THP website (Link: https://trilliumhealthpartners.ca/education/Documents/IPE-Calendar.pdf).

If you are interested in facilitating an IPE elective or in creating an IPE elective opportunity for learners, please contact Dr. Cindy Quinton, Physician Lead, IPE & Education Innovation.
FACULTY DEVELOPMENT

Dr. Robert Goldberg, Mississauga Academy of Medicine Physician Lead, Faculty Development works in collaboration with the education teams at both UTM and Trillium Health Partners to support local planning and implementation of the overall Temerty Medicine strategy for faculty development for teachers and educators involved in academic activities related to the Mississauga Academy of Medicine.

In addition, the Office of Faculty Development, MD Program, offers a variety of opportunities to help medical educators prepare for their teaching roles in the MD Program at the University of Toronto. Medical educators can receive support to assist with development, and delivery of the various components of the Foundations and Clerkship curricula.

To find self-directed learning resources and/or register for in-person education activities, visit the Office of Faculty Development website (click on logo below). On this website you have access to:

- events (e.g. academy specific workshops, webinars)
- resources (e.g. print material, videos, eLearning modules)

For additional information, please contact Teresa Simm, Faculty Development Coordinator – ofd.md@utoronto.ca, Office of Faculty Development, MD Program, Temerty Faculty of Medicine, University of Toronto, 1 King’s College Circle, Toronto ON, M5S 1A8; 416-978-1699.

TEACHING INTEREST

Physician Name (Last, First): ________________________________

Program: ________________________________________________

Division: ________________________________________________

Please indicate below which teaching activities you are interested in leading or learning more about:

**MD Program Years 1 and 2**

- Case-Based Learning (CBL) Tutor – at UTM
- Clinical Skills (CS) Tutor – in hospital
- Health in Community (HC) Facilitator – at UTM
- Health Science Research (HSR) Tutor – at UTM
- Portfolio Facilitator – at UTM
- Seminar/Workshop Leader – at UTM
- Lecturer – at UTM

**THP Education Office (EO)**

- Simulation
- Interprofessional Education (IPE)
- Research

**MD Program Years 3 and 4**

- Clinical Teaching - preceptor
- Seminar Lead - in hospital
- Portfolio Facilitator - in hospital

**Student Success**

- Canadian Resident Matching Service (CaRMS)
- Enriching Educational Experience (EEE) aka Shadowing or Observership
- Mentorship
- Remediation
- Examiner (iOSCE, Oral Exams)

☐ I would like to book a one-on-one meeting to discuss teaching opportunities (optional).

Please send this completed form to Dr. Sarah McClennan, Academy Director at Sarah.McClennan@thp.ca
